

CONDITIONS FOR ACCEPTANCE

Filter mats from spray booths

EURAL code	150202*
Waste code	015018

DESCRIPTION

Filter mats from spray booths, contaminated with paint.

ADDITIONAL CONDITIONS

Parameters:

- Chlorine: max. 1%
- PCB: max. 50 ppm
- Flashpoint: > 21°C
- pH: > 4

General conditions:

- No heavy, solid materials (such as large concrete blocks).
- No liquids.
- No pressurised containers (such as spray cans and gas cylinders).
- No powdery material.
- No waste that causes chemical reactions or gas formation.
- No chlorates.

Packaging conditions:

- The waste must be packed in tightly closed plastic bags. Those bags in turn must be packed in durable, tightly closed outer packaging (such as a drum or ASP).
- Containers must be able to be emptied by upturning.
